

Candidate Testimonials

“I have worked with Matt Rowe and Eximius now for over 7 years starting off in my previous company when they supported me for Investment Banking Operations recruitment and then through to the Front Office Markets businesses.

Matt is a true professional in his space and someone I have heavily relied on over the years, but most of all someone I have complete trust in.”

“I had no hesitation to immediately introduce them to Rothschild as one of my suppliers into the Private Wealth and Merchant Banking arms and they are already making placements”.

Candidate Testimonials

“I’d like to bring to your attention my recent experience with Eximius as a recruitment agency, and particularly with Harry Ford.

I reached out to a handful of recruiters before the end of the year and am yet to hear back from any with the exception of Eximius. Harry responded within a few hours with a potential role suited to my experience and had me booked in for an interview within a matter of days. Four interviews later I have been offered the position and Harry has been very transparent throughout, demonstrating a thorough understanding of the business areas he is recruiting for and providing useful insights before and after each interview.

This is the most positive experience I have had with a recruitment agency, having dealt with a number in the past for Glasgow based roles.”
